

ELECTRIC PLUMBING HVAC

As we enter a new season, we turn the clocks back, the weather shifts, and our schedules become increasingly overloaded with the tasks of the holidays and family. The last thing you want to do in the middle of this busy time is realize your furnace has quit operating or your pipes froze in the middle of the night. Take a moment now to call in the experts to inspect your plumbing and your heat and air system to ensure you are fully prepared to take on the season with all its highs and lows.

Our locally owned companies want to save you the hassle and headache we went through last year when temperatures hit negative fifteen degrees. Working overtime to repair burst pipes and even tanks, the It's Plumbing crew burned the midnight oil to keep water flowing for our clients. Water damage claims due to burst pipes is the second most filed insurance claim in the country with an average of \$10,000 per claim between the pipe damage, flooding, and potential repairs to your home. Most insurance companies are picky about what they will and won't cover in these situations. Instead of waiting for the damage to happen, give us a call today to ready your system for the season, so you can enjoy the people and things you want to focus on. At It's Plumbing, we offer **free estimates** and consults to prepare your home and business for the winter months ahead.

The newest company to join our "It's" brand is It's HVAC. Led by Justin Hulseby with over twenty years experience, we offer **bi-annual service agreements**, so you have an expert's eye on your heating and air systems before the changing of the seasons. Through December 15th we are offering \$20 off system diagnostics (mention code: WINTER21), allowing you to enter the season with confidence. Don't question whether your system can weather the next freeze, give us a call today!

Didn't call us before the storm hit? That's okay too. We offer 24 hour emergency services across all our It's Service brands. You can call our main office line **(479) 866-6310** and speak with a live person around the clock. We look forward to servicing your home and business this season.

Happy Holidays!

In Gratitude,

It's Plumbing, It's Electric, and It's HVAC
